Attention Buyers:

All bulls offered in the sale passed breeding soundness evaluations with satisfactory semen motility and morphology, and normal reproductive conformation. Bulls tested negative for *Tritrichomonus foetus* via individual RT-PCR evaluation within the last 30 days.

The heifers offered in the sale were vaccinated for Brucellosis with the RB-51 vaccine at less than 12 months of age. Pregnancy in bred heifers was confirmed within the last 70 days.

For cattle traveling out of Florida, a health certificate must be obtained from the Adams Ranch Office.
